LITTLE FEAR EXPRESSED OF AN ICE FAMINE HERE

Supply is Well Up With Demand the Dealers Report

OTHER TOWNS SUFFER

Washington Complaining of Shortage Resulting From a Breakdown

Though the excessive heat has created an unusual demand for ice and though other cities and towns are suffering from lack of a supply, Charleroi and community have plenty. The Valley Crystal Ice and Storage company and George Moody, retail ice producers and the Charleroi Brewery which has an ice trade, report that there is no likelihood of an ice shortage here.

Cincinnati, Philadelphia and other cities have suffered ice famines. There is a strike of ice men on at the first named city. There the health board seized ice plants and started them in operation. At Washington, the county seat, there is an ice shortage because of a breakdown in the Washington Ice Company plant. The breakdown was caused by the strain necessary to keep the unusual demand for ice supplied.

From Charleroi the Valley Crystal Ice company supplies trade in California, Donora, Monongahela, Belle Vernon. Yet there is no sign of the supply running short. All the dealers have their regular customers, but the largest trade is supplied by the Valley Crystal Ice and Storage company. Previous to this year it is stated they had some trouble keeping up the demand coming from Monongahela valley points. But during the last spring an addition to the plant was built, putting the plant in shape to handle a much larger trade.

It has been necessary for Washington to secure ice from outside points. Large cities are also securing outside supplies.

Lose Lives in Stream

Of Five Drowned in Washington County During June Three Were Boys

Of the five drownings in Washington county during the month of June three were boys. Excessive heat led them to go in bathing it is stated and their drowning followed. Those who lost their lives in water, according to Coroner James T. Heffran were: John Ceilski, aged 35, drowned in the Monongahela river at Courtney; George J. Morgan, aged 8, drowned in a creek at Ellsworth; Roy N. Moore; aged 9, drowned in East Pike Run at Coal Centre; Emile J. Bailey, aged 41, drowned in the Monongahela river at Monongahela; Adolph Bezy, aged 16 of Charleroi, drowned in the Monongahela river at North Charleroi.

STIRRING CAREER IS AT AN END

Negro Street Commissioner of Washington Dies, Aged 62

BROKE UP BAD GANG

Ben F. Cox, 62 years, street commissione: of Washington, the only negro ever elected to the position, was buried Monday.

His death revived interesting county history. More than thirty years ago a band of Virginia negroes were employed in the vicinity on railroad construction work. The leader, a giant negro, Mulligan, became the terror of the district and it was rumored that Mulligan and his gang planned to carry off the wives and daughters of persons in the territory. After several attempts had been made to do this Cox and his wife encountered Mulligan, who, it is said, started for Mrs. Cox. Cox shot him dead, was tried convicted and sent to the penitentiary. When Cox left for the prison he was accompanied to the train by a large number of sympathizers.

Cox was released after a time through the efforts of friends, and when he returned was made street commisioner of Washington. It is said the shooting of Mulligan by Cox broke up the band and the negro was an admirable executive as a street commissioner.

FOURTH TO BE A BIG DAY AT PARK

Eldora Prepares to Entertain One of Biggest Crowds of Entire Year---Fireworks Display to be Feature

All this week a force of men has been engaged at Eldora Park in getting affairs in shape for one of the biggest crowds of the season expected to appear tomorrow at the Fourth of July celebration. As a result the e has been little going on at the park outside of the regular dances.

Workmen have cleaned up the park mowed the grass, made repairs where needed and generally put things in the best possible shape. The capacity of the spring has been doubled so that there will be no danger of the water supply becoming exhaused.

As announced last week there will be dancing morning, afternoon and evening, with a fireworks display in the evening at 9 o'clock. The fireworks display will consist generally of aerial sets.

Next Sunday the Wheeler orchestra will give a concert at the park and a singer from Pittsburg will appear. It is expected that the singer will be Ben Fields who recently sang at the park with Joseph Nirella prize band. Announcement has already been made of the picnic to be held by St. Mary's Episcopal Sunday school of Charleroo and the Episcopal Sunday school of Monessen on July 9 and of the picnic of the Hebrew Ladies Aid Society from Monessen on July 10.

A long range date was booked within the last few days by Assistant Manager Roy S. Sharpnack in the annual outing of the Belle Vernon Civic League. The picnic will be an event of the first week of August. Preparations will be gotten under way at once. Eldora was selected in preference to Kennywood park, the representative of which attended the meeting when the choice was made.

STARS IN CAST OF PALACE PICTURE

"The Run on the Bank," a three part feature is the motion picture drama that has been booked by the Palace theatre for presentation on the Fourth of July. The story is one showing where treachery and money greed are run to earth, and is exciting, melodramatic, sensational and emotional. The production is splendidly staged, and is a gem along the line of photography, a bank run scene and the deluge of water being particularly effective. Stars are included in the cast.

Farewell Reception Held.

A farewell reception was held at the Methodist Episcopal church Wednesday evening for Mr. and Mrs. C. C. Crill and their family who are to leave this week for their new home in Pittsburg. Many were present at the reception.

ACCUSES WIFE THEN SLASHES HER THROAT

So Story is Told of Case of Domestic Infelicity at Elco

ALSO SLASHES HIMSELF

Woman Runs to Neighbors---Man Found Unconscious on Floor of Room

Jealously said to have been occasioned by the belief that his wife was intimate with boarders at his home led John Kempa, aged about 50 years to gash the throat of his wife Wednesday afternoon, it is stated, and then to slash his own throat. They live at Elco. Both are in bad shape from the loss of blood and from the shock of the injury. The woman is the worst hurt.

Krempa is a miner. He is alleged to have accused his wife of infidelity and of being familiar with boarders in a way that he did not like. Then it is stated he drew a razor and attacked her.

He first slashed her throat, it is said, and then with the bloody instrument hacked at her chest and shoulders, inflicting horrible wounds.

The woman ran out of the door, the blood streaming from her cuts and to the house of a neighbor only a short ways distant. Immediately help was summoned and a doctor called. Dr. E. L. Collier was the first physician to reach the place and he found the woman sitting on the front door step of his neighbor's home in a semi-conscious condition. She was carried back into the house, and her husband was found lying unconscious on the floor, his throat cut.

The couple had four children one of which is a boy of about 14 years, employed in a Charleroi glass plant. The other children are all younger. One child died last week.

Poisoning is General

Thirty Fayette Citians Become Ill and Buttermilk is Believed to be Cause

Approximately 30 persons in Fayette City became ill of ptomaine poisoning shortly after drinking buttermilk at Fayette City Wednesday night. Some of them were seriously sick during the night, requiring the services of physicians. Some of the buttermilk believed to have caused the epidemic was sent to Pittsburg, it was stated this morning for analysis by a chemist. Today those afflicted aresaid to be recovering and there will be no fatalities.

WHAT IT MEANS.

As a result of the great political revolution that is sweeping this country the anniversary of the nation's birth takes on a new significance. The perversion of the rights of man in favor of so-called business and special interests which was insiduously effected under the guise of protection of industry is now being swept away, and once more the fundamental guarantee of the Declaration of Independence is being clothed with its original intent and meaning. The checks and hindrances that were intersposed in the framing of the constitution to prevent direct rule by the people are being eliminated and while this is likely to be a slow process at the start it will gain in momentum as popular sentiment grows and the desired end will be reached easily and effectively. The constitutional amendments granting the election of United States senators by popular vote is a gigantic stride in the direction of popular rule in response to popular demand.

This means that public thought is being quickened in the interests of humanity. It is the individual, not the thing that must be considered in the future. The fatal mistake of imperialism is that it alone considers the material instead of the human side of government. A nation is not strong unless its people are prosperous, contented and happy, and this condition cannot be attained so long as the government fosters special interests and abridges the rights of the many.

This Fourth of July anniversary serves to emphasize anew that the rights of man are paramount to vested interests, and that these rights are inherent and attainable. It is for the people to the dictating and from this time hence direct rule by the people will be the burning issue of politics.

PLAY IT SAFE.

In view of the general and specific warnings issued regarding the observance of the Fourth of July, it is well for each individual to constitute himself and herself a guardian of the family and play a safe game during the entire holiday. Watch the children closely and help them to set off whatever explosives or fireworks you may see fit to permit them to handle during the day and evening. It will pay you to do so.

The premature explosion of a giant firecracker may mutilate a thumb and finger of a child so as to cripple it for life. A firecracker or other explosive thrown carelessly in the face of a child may blind it. Carelessness in other directions may set fire to the clothing of persons or destroy property, so that it behooves each and every one who have children that engage in celebrating the Fourth to watch them carefully the whole day and evening. Eternal vigilance on the Fourth is oftimes the price of an eye, a thumb or a finger.

ELECTRIC SPARKS

Out in Gettysburg a big celebration is in progress. In Pittsburg the international eisteddfod is attracting world-wide attention. Up in Erie they are preparing for the Perry anniversary. Now if there was only something to celebrate up in the north-eastern part of the old Keystone state would be the real hub.

PICKED UP IN PASSING

The following poem, "Children of the Looms," is by William Francis Barnard, the Socialist author, orator and poet, who lectures at Eldora Park tomorrow, July Fourth. Mr. Barnard recites this poem during his lecture. In view of the recent campaign for the child labor bill which failed to pass at the recent session of the legislature the sentiment of the poem is timely in expressing conditions that the measure sought to remedy.

Oh, what are these that plod the road
At dawn's first hour and evening's chime,
Each back bent as beneath a load;
Each sallow face afoul with grime?
Nay, what are these whose little feet
Scarce bear them on to toil or bed!
Do hearts within their bosoms beat?
Surely, 'twere better they were dead.

Babes are they, doomed to cruel dooms,
Who labor all the livelong day;
Who stand beside the roaring looms
Nor ever turn their eyes away;
Like parts of those machines of steel:
Like wheels that whirl, like shuttles thrown;
Without the power to dream or feel;
With all of childishness unknown.

Brothers and sisters of the flowers,
Fit playmates of the bird and bee,
For you grow soft the springtime hours;
For you the shade lies 'neath the tree.
For you Life smiles the whole day long;
For you she breathes each breath in bliss,
And turns all sound into a song;
And you, and you are come to this!

Is't not enough that man should toil
To fill the hands that clutch for gold?
Is't not enough that women moil,
And in life's summer time grow old?
Is't not enough that death should pale
To see men welcome him at rest;
But must the children drudge and fail
And perish on the mother's breast?

See, lovers, wed at tender eve;
See, mothers, with your new-born young;
See, fathers—if ye can, believe;
From infant blood, lo, wealth is wrung!
See homes; see towns; see cities; states;
Earth, show it to the skies above!
Lovers who pass through rapture's gates,
Are these, are these your fruits of love?

O man, who boast your lands subdued,
Your conquered air, your oceans tamed,
Who mold all nature to your mood,
Look on these babes and be ashamed!
Dull looks from out each weary face,
Cold words upon each little tongue—
Dead lives that know not childhood's grace,
Grown old before they can be young.

Hear, world of Mammon, brutal, bold,
Gorging with life the maw of greed
Measuring everything by gold:
The good deed with the evil deed—
The pangs of suffering childhood's care,
Now coined in coins to fill a purse.
And rest upon you for a curse!

EUROPEAN HEALTH RESORTS

Numbers of people of the wealthier class annually visit Carlsbad, Marienbad and other well-known Continental watering places, there to drink the mineral waters which have effected many wonderful cures of various ailments. The expense of the trip and the sojourn abroad is so heavy as to be prohibitive except to those who possess large resources. But the cost of the trip and all the incidentals is counted but little when robust health is restored. The keen appreciation of good health is thus shown very plainly when people will travel half way round the world in search of it.

Statistics recently obtained disclose the astonishing fact that 84 per cent of the total population of America are affected with deposits of uric acid in their blood. This accounts to a large extent for the prevalence of rheumatism, gout, auto-intoxication and kindred maladies. To overcome this condition those who have the time and money visit the European Spas, drink from the mineral springs, and thus cleanse their system and drive the uric acid from their blood.

There are few of us who can afford the trip to Europe. It is, therefore, extremely interesting to most of us to learn that an important discovery in chemistry has resulted in the production of all the elements of the mineral waters in concentrated powder form. This discovery is of much significance to those who are troubled with ailments arising from uric acid in the blood. The powder has been strengthened by the addition of sodium phosphate and lithium citrate, and has been marketed under the name of LAX-URIC. Dissolved in water it produces a sparkling, effervescent drink superior in every way to the famous mineral waters of Europe, and is without an equal as a curative agent for biliousness, sallow complexion and all liver and kidney disorders. LAX-URIC contains no harmful drugs and is quite pleasant to take. Many extraordinary cures have been credited to this new treatment. It is sold in large jars at 25c, 50c and $1.00. PROUD OF HIS SELF-CONTROL

Mrs. Brown Could Agree With Her Liege Lord, Too, That It Was Something Uncommon.

Mr. Brown was excitable by nature, but he often prided himself audibly upon his self-control. One night while the family were gathered at the tea table the chimney began to roar; the furnace draft had been opened and forgotten. Straightway a panic ensued.

"Don't lose your heads—keep cool!" cried Mr. Brown. "It's nothing serious."

He dashed up the stairs, discovered that the metal cap over the only unused stovepipe hole was already red hot, and dashed down again faster than he went up.

"K-keep cool!" he gasped, as he passed through the room where the family had gathered in nervous apprehension. "I'll be back in a minute."

He was back in less than that time, having observed that the flames were spouting several feet high from the chimney, and that a shower of sparks was falling upon the roof.

"Wh-where's the step-ladder?" he panted.

He was gone before anyone could answer the question, and presently was heard bellowing from the roof of the woodshed. He presented an heroic figure in the glare of the blazing chimney.

"I've got one end of the hose!" he called. "Some one attach the other end and turn on the water—quick!"

Two long minutes passed.

"Why doesn't some one do as I ordered?" he thundered. "Do you want the place to burn up?"

"We can't, Henry!" called Mrs. Brown, tremblingly. "You haven't got the hose—you've got the cow-rope. It was hanging next to the hose in the shed. And anyway, the roof is covered with ice, and I don't think there's any great danger outside. You'd better go and watch the chimney from the inside."

A half-hour later the family were again at the tea table.

"If this had happened in some homes," remarked Mr. Brown, "the family would have lost their heads completely and sent in an alarm. Self-control is an excellent thing—and far from common."

"Indeed it is!" agreed Mrs. Brown, emphatically.—Youth's Companion.

BASEBALL FOR THE FARMER

Possibly the Game Might Be of Benefit to Him, But It Is Hardly Indispensable.

Baseball never has been regarded exclusively as a city product. While it is true that the cities supply the enormous crowds that support the big leagues, it is equally true that many of the players in those leagues are graduates of the "bush" leagues. The country boy has an equal chance with the city boy to win the high honors and generous emoluments of a successful ball player. The farmer himself has not come directly in touch with the national game, perhaps, except on a rare holiday. A professor in the Kansas State Agricultural college calls this a mistake. Familiarity with the game, he believes, would promote success in agriculture. If the farmer would play ball "it would take the shamble out of his walk" and "make him decide quicky." This is an interesting theory, but it will not be universally accepted. Some will contend that the motor car has already taken the "shamble" out of the farmer's walk. Others will insist that handling a high spirited horse or pitching a load of hay on a wagon while a thunderstorm is gathering is just as valuable in training his mental faculties to quick action.—Rochester Democrat and Chronicle.

Rose Culture in Bulgaria.

White and red roses are grown, the former being easier to cultivate, but giving only about half as much oil of an inferior quality. The individual growers distil their own oil. Twelve to fifteen kilos of roses are distilled with 60 kilos of water until 12 kilos of distillate are obtained; eight to ten such lots are then united, and redistilled into long necked flasks, in which the oil separates on standing. To produce one kilo of oil requires 3,000 kilos of roses of 1,200,000 flowers. The roses are gathered in the early morning and distilled the same day. The pure oil from the various districts shows variations in odor and physical properties and is therefore skillfully blended by the distributing houses before sale. Adulteration is very largely carried on by the peasants, who use ginger grass oil, palma rosa oil, geranium oil, etc. The production for 1910 was 3,142 kilos.—The Pharmaceutical Era.

We Are Creatures of Habit.

There was no rush at the moment and the ticket chopper had time to talk to the man waiting for a friend in a subway station. "Yes, we see lots of queer people here," he said, "and we have nearly the same people every day and at the same hour. I know men who do not vary a minute in a week in their reaching the ticket box. The queerest man we have at this station we call 'the whistler.' Every morning at 7:20 he drops his ticket in the box and he always whistles. That wouldn't be so funny, but for years it has always been the same tune. We all know the tune, but no one knows the song. His ticket goes in the box at the same note every morning, and then he walks to the third post, opens his paper and whistles till the train comes."—New York Tribune.

AMONG THE THEATRES

THE PALACE—CHARLEROI.

For the Fourth of July program the Palace has booked a Great Northern Special Feature Film in three reels, entitled "The Bank Run," which is an absorbing photo drama of the strongest type. It shows how money greed and treachery are run to earth, and is exciting and melodramatic. A strong feature of the fore part of the week was "Revenge," a three reel drama, which is founded on jealousy and a woman's perfidy. The Pathe Weekly is a regular Friday feature, and this is eagerly awaited by the large clientele of Palace patrons. Showing as it does the leading and world wide events and occurrences as they really happen, this is a most interesting feature. The Palace is specially cooled by a series of electric fans, so that the intense heat of the week is never noticed by the patrons. Indeed, many went there evenings to escape the heat. For Saturday Manager R.L. Barnhart has booked a big three reel feature in addition to the regular service. This "Twixt Life and Death," a sensational and thrilling story of love and extraordinary adventure."

THE COYLE—CHARLEROI.

Starting with a big feature in three reels—an Eclaire—"Why?" the Coyle Theatre presented a varied and attractive program for the week. "Why" was a vivid exposition of life at full tide, and attracted much attention. "Dolly and the Burglar," "Self Accused," and the "The World at Large" were some of the leading features of the first of the week's bill. Other noted films were "The Pillar of Peril." "Owana, the Devil Woman," and "The Kidnapped Train" "The Spirit of the Flag" in two reels, was a Bison of extraordinary power, and tells a story of life in the Philippines where the spirit of American citizenship is being instilled into that country by the medium of the American school teacher. Incidentally there was a pretty love story with some thrilling adventures connected. Friday's bill included "On the Brink of the Abyss," a two reel Paris-Eclaire feature, "The Comedian's Mask" in two reels, and "The Ranch Girl and the Sky Pilot." For Saturday is booked "The Grand Old Flag," a two reel Bison, and "The Spring in the Desert."

THE STAR—CHARLEROI

A good hot weather program featured the fore part of the week—"Children of St. Ann" and "The Way of a Mother." The titles of the single films indicate their nature, and they were of a very entertaining character. Among these were "The Road to Ruin," "The Girl Detective's Ruse." and "The Woman Hater's Defeat." A good split comedy film was "Algie on the Force" and "His Ups and Downs." "The Brothers," "Good Within," "Her Sister's Secret" and "Express C. O. D.," were others which attracted unusual attention. On Friday the Fourth is presented "Human Kindness," "Cruel Suspicion," and a split reel embracing "Darktown Belles" and "The Little Hero." The Mutal Weekly of leading world's events is scheduled for Saturday, together with "Past Redemption," in two reels.

LITTLE FEAR EXPRESSED OF AN ICE FAMINE HERE

Supply is Well Up With Demand the Dealers Report

OTHER TOWNS SUFFER

Washington Complaining of Shortage Resulting From a Breakdown

Though the excessive heat has created an unusual demand for ice and though other cities and towns are suffering from lack of a supply, Charleroi and community have plenty. The Valley Crystal Ice and Storage company and George Moody, retail ice producers and the Charleroi Brewery which has an ice trade, report that there is no likelihood of an ice shortage here.

Cincinnati, Philadelphia and other cities have suffered ice famines. There is a strike of ice men on at the first named city. There the health board seized ice plants and started them in operation. At Washington, the county seat, there is an ice shortage because of a breakdown in the Washington Ice Company plant. The breakdown was caused by the strain necessary to keep the unusual demand for ice supplied.

From Charleroi the Valley Crystal Ice company supplies trade in California, Donora, Monongahela, Belle Vernon. Yet there is no sign of the supply running short. All the dealers have their regular customers, but the largest trade is supplied by the Valley Crystal Ice and Storage company. Previous to this year it is stated they had some trouble keeping up the demand coming from Monongahela valley points. But during the last spring an addition to the plant was built, putting the plant in shape to handle a much larger trade.

It has been necessary for Washington to secure ice from outside points. Large cities are also securing outside supplies.

Read Claybaugh & Milliken's ad on page 4 and then act. 292-t1

FOURTH WILL BE OBSERVED HERE AS VACATION DAY

What observance of the Fourth of July there will be in Charleroi will be confined largely to a celebration at the playgrounds and two ball games. The holiday will be kept by business people and generally will be a vacation day. STIRRING CAREER IS AT AN END

Negro Street Commissioner of Washington Dies, Aged 62

BROKE UP BAD GANG

Ben F. Cox, 62 years, street commissioner of Washington, the only negro ever elected to the position, was buried Monday.

His death revived interesting county history. More than thirty years ago a band of Virginia negroes were employed in the vicinity on railroad construction work. The leader, a giant negro, Mulligan, became the terror of the district and it was rumored that Mulligan and his gang planned to carry off the wives and daughters of persons in the territory. After several attempts had been made to do this Cox and his wife encountered Mulligan, who, it is said, started for Mrs. Cox. Cox shot him dead, was tried convicted and sent to the penitentiary. When Cox left for the prison he was accompanied to the train by a large number of sympathizers.

Cox was released after a time through the efforts of friends, and when he returned was made street commisioner of Washington. It is said the shooting of Mulligan by Cox broke up the band and the negro was an admirable executive as a street commissioner.

FOURTH TO BE A BIG DAY AT PARK

Eldora Prepares to Entertain One of Biggest Crowds of Entire Year---Fireworks Display to be Feature

All this week a force of men has been engaged at Eldora Park in getting affairs in shape for one of the biggest crowds of the season expected to appear tomorrow at the Fourth of July celebration. As a result there has been little going on at the park outside of the regular dances.

Workmen have cleaned up the park mowed the grass, made repairs where needed and generally put things in the best possible shape. The capacity of the spring has been doubled so that there will be no danger of the water supply becoming exhausted.

As announced last week there will be dancing morning, afternoon and evening, with a fireworks display in the evening at 9 o'clock. The fireworks display will consist generally of aerial sets.

Next Sunday the Wheeler orchestra will give a concert at the park and a singer from Pittsburg will appear. It is expected that the singer will be Ben Fields who recently sang at the park with Joseph Kirsch prize winner. Announcement has already been made of the picnic to be held by St. Mary's Episcopal Sunday school of Charleroo and the Episcopal Sunday school of Monessen on July 9 and of the picnic of the Hebrew Ladies Aid Society from Monessen on July 16.

A long range date was booked within the last few days by Assistant Manager Roy S. Sharpnack in the annual outing of the Belle Vernon Civic League. The picnic will be an event of the first week of August. Preparations will be gotten underway at once. Eldora was selected in preference to Kennywood park, the representative of which attended the meeting when the choice was made.

STARS IN CAST OF PALACE PICTURE

"The Run on the Bank," a three part feature is the motion picture drama that has been booked by the Palace theatre for presentation on the Fourth of July. The story is one showing where treachery and money greed are run to earth, and is exciting, melodramatic, sensational and emotional. The production is splendidly staged, and is a gem along the line of photography, a bank run scene and the deluge of water being particularly effective. Stars are included in the cast.

Farewell Reception Held.

A farewell reception was held at the Methodist Episcopal church Wednesday evening for Mr. and Mrs. C. C. Crill and their family who are to leave this week for their new home in Pittsburg. Many were present at the reception.

WHAT IT MEANS.

As a result of the great political revolution that is sweeping this country the anniversary of the nation's birth takes on a new significance. The perversion of the rights of man in favor of so-called business and special interests which was insiduously effected under the guise of protection of industry is now being swept away, and once more the fundamental guarantee of the Declaration of Independence is being clothed with its original intent and meaning. The checks and hindrances that were interposed in the framing of the constitution to prevent direct rule by the people are being eliminated and while this is likely to be a slow process at the start it will gain in momentum as popular sentiment grows and the desired end will be reached easily and effectively. The constitutional amendments granting the election of United States senators by popular vote is a gigantic stride in the direction of popular rule in response to popular demand.

This means that public thought is being quickened in the interests of humanity. It is the individual, not the thing that must be considered in the future. The fatal mistake of imperialism is that it alone considers the material instead of the human side of government. A nation is not strong unless its people are prosperous, contented and happy, and this condition cannot be attained so long as the government fosters special interests and abridges the rights of the many.

This Fourth of July anniversary serves to emphasize anew that the rights of man are paramount to vested interests, and that these rights are inherent and attainable. It is for the governed to do the dictating and when the time hence direct rule by the people will be the burning issue of politics.

PLAY IT SAFE.

In view of the general and specific warnings issued regarding the observance of the Fourth of July, it is well for each individual to constitute himself and herself a guardian of the family and play a safe game during the entire holiday. Watch the children closely and help them to set off whatever explosives or fireworks you may see fit to permit them to handle during the day and evening. It will pay you to do so.

The premature explosion of a giant firecracker may mutilate a thumb and finger of a child so as to cripple it for life. A firecracker or other explosive thrown carelessly in the face of a child may blind it. Carelessness in other directions may set fire to the clothing of persons or destroy property, so that it behooves each and every one who have children that engage in celebrating the Fourth to watch them carefully the whole day and evening. Eternal vigilance on the Fourth is oftimes the price of an eye, a thumb or a finger.

ELECTRIC SPARKS

Out in Gettysburg a big celebration is in progress. In Pittsburg the international eisteddfod is attracting world-wide attention. Up in Erie they are preparing for the Perry anniversary. Now if there was only something to celebrate up in the north-eastern part of the old Keysone state would be the real hub.

PICKED UP IN PASSING

The following poem, "Children of the Looms," is by William Francis Barnard, the Socialist author, orator and poet, who lectures at Eldora Park tomorrow, July Fourth. Mr. Barnard recites this poem during his lecture. In view of the recent campaign for the child labor bill which failed to pass at the recent session of the legislature the sentiment of the poem is timely in expressing conditions that the measure sought to remedy.

Oh, what are these that plod the road
At dawn's first hour and evening's chime,
Each back bent as beneath a load;
Each sallow face afoul with grime?
Nay, what are these whose little feet
Scarce bear them on to toil or bed!
Do hearts within their bosoms beat?
Surely, 'twere better they were dead.

Babes are they, doomed to cruel dooms,
Who labor all the livelong day;
Who stand beside the roaring looms
Nor ever turn their eyes away;
Like parts of those machines of steel:
Like wheels that whirl, like shuttles thrown;
Without the power to dream or feel;
With all of childishness unknown.

Brothers and sisters of the flowers,
Fit playmates of the bird and bee,
For you grow soft the springtime hours;
For you the shade lies 'neath the tree.
For you Life smiles the whole day long;
For you she breathes each breath in bliss,
And turns all sound into a song;
And you, and you are come to this!

Is't not enough that man should toil
To fill the hands that clutch for gold?
Is't not enough that women moil,
And in life's summer time grow old?
Is't not enough that death should pale
To see men welcome him at rest;
But must the children drudge and fail
And perish on the mother's breast?

See, lovers, wed at tender eve;
See, mothers, with your new-born young;
See, fathers—if ye can, believe;
From infant blood, lo, wealth is wrung!

See homes; see towns; see cities; states;
Earth, show it to the skies above!
Lovers who pass through rapture's gates,
Are these, are these your fruits of love?

O man, who boast your lands subdued,
Your conquered air, your oceans tamed,
Who mold all nature to your mood,
Look on these babes and be ashamed!

Dull looks from out each weary face,
Cold words upon each little tongue—
Dead lives that know not childhood's grace,
Grown old before they can be young.

Hear, world of Mammon, brutal, bold,
Gorging with life the maw of greed
Measuring everything by gold:
The good deed with the evil deed—
The pangs of suffering childhood's care,
Now coined in coins to fill a purse.
And rest upon you for a curse!

EUROPEAN HEALTH RESORTS

Numbers of people of the wealthier class annually visit Carlsbad, Marienbad and other well-known Continental watering places, there to drink the mineral waters which have effected many wonderful cures of various ailments. The expense of the trip and the sojourn abroad is so heavy as to be prohibitive except to those who possess large resources. But the cost of the trip and all the incidentals is counted but little when robust health is restored. The keen appreciation of good health is thus shown very plainly when people will travel half way round the world in search of it.

Statistics recently obtained disclose the astonishing fact that 84 per cent of the total population of America are affected with deposits of uric acid in their blood. This accounts to a large extent for the prevalence of rheumatism, gout, auto-intoxication and kindred maladies. To overcome this condition those who have the time and money visit the European Spas, drink from the mineral springs, and thus cleanse their system and drive the uric acid from their blood.

There are few of us who can afford the trip to Europe. It is, therefore, extremely interesting to most of us to learn that an important discovery in chemistry has resulted in the production of all the elements of the mineral waters in concentrated powder form. This discovery is of much significance to those who are troubled with ailments arising from uric acid in the blood. The powder has been strengthened by the addition of sodium phosphate and lithium citrate, and has been marketed under the name of LAX-URIC. Dissolved in water it produces a sparkling, effervescent drink superior in every way to the famous mineral waters of Europe, and is without an equal as a curative agent for biliousness, sallow complexion and all liver and kidney disorders. LAX-URIC contains no harmful drugs and is quite pleasant to take. Many extraordinary cures have been credited to this new treatment. It is sold in large jars at 25c, 50c and $1.00. Thus the price of robust health is but trivial. Ask for a free sample at

PROUD OF HIS SELF-CONTROL

Mrs. Brown Could Agree With Her Liege Lord, Too, That It Was Something Uncommon.

Mr. Brown was excitable by nature, but he often prided himself audibly upon his self-control. One night while the family were gathered at the tea table the chimney began to roar; the furnace draft had been opened and forgotten. Straightway a panic ensued.

"Don't lose your heads—keep cool!" cried Mr. Brown. "It's nothing serious."

He dashed up the stairs, discovered that the metal cap over the only unused stovepipe hole was already red hot, and dashed down again faster than he went up.

"K-keep cool!" he gasped, as he passed through the room where the family had gathered in nervous apprehension. "I'll be back in a minute."

He was back in less than that time, having observed that the flames were spouting several feet high from the chimney, and that a shower of sparks was falling upon the roof.

"Wh-where's the step-ladder?" he panted.

He was gone before anyone could answer the question, and presently was heard bellowing from the roof of the woodshed. He presented an heroic figure in the glare of the blazing chimney.

"I've got one end of the hose!" he called. "Some one attach the other end and turn on the water—quick!"

Two long minutes passed.

"Why doesn't some one do as I ordered?" he thundered. "Do you want the place to burn up?"

"We can't, Henry!" called Mrs. Brown, tremblingly. "You haven't got the hose—you've got the cow-rope. It was hanging next to the hose in the shed. And anyway, the roof is covered with ice, and I don't think there's any great danger outside. You'd better go and watch the chimney from the inside."

A half-hour later the family were again at the tea table.

"If this had happened in some homes," remarked Mr. Brown, "the family would have lost their heads completely and sent in an alarm. Self-control is an excellent thing—and far from common."

"Indeed it is!" agreed Mrs. Brown, emphatically.—Youth's Companion.

BASEBALL FOR THE FARMER

Possibly the Game Might Be of Benefit to Him, But It Is Hardly Indispensable.

Baseball never has been regarded exclusively as a city product. While it is true that the cities supply the enormous crowds that support the big leagues, it is equally true that many of the players in those leagues are graduates of the "bush" leagues. The country boy has an equal chance with the city boy to win the high honors and generous emoluments of a successful ball player. The farmer himself has not come directly in touch with the national game, perhaps, except on a rare holiday. A professor in the Kansas State Agricultural college calls this a mistake. Familiarity with the game, he believes, would promote success in agriculture. If the farmer would play ball "it would take the shamble out of his walk" and "make him decide quicky." This is an interesting theory, but it will not be universally accepted. Some will contend that the motor car has already taken the "shambie" out of the farmer's walk. Others will insist that handling a high spirited horse or pitching a load of hay on a wagon while a thunderstorm is gathering is just as valuable in training his mental faculties to quick action.—Rochester Democrat and Chronicle.

Rose Culture in Bulgaria.

White and red roses are grown, the former being easier to cultivate, but giving only about half as much oil of an inferior quality. The individual growers distil their own oil. Twelve to fifteen kilos of roses are distilled with 60 kilos of water until 12 kilos of distillate are obtained; eight to ten such lots are then united, and redistilled into long necked flasks, in which the oil separates on standing. To produce one kilo of oil requires 3,000 kilos of roses of 1,200,000 flowers. The roses are gathered in the early morning and distilled the same day. The pure oil from the various districts shows variations in odor and physical properties and is therefore skillfully blended by the distributing houses before sale. Adulteration is very largely carried on by the peasants, who use ginger grass oil, palma rosa oil, geranium oil, etc. The production for 1910 was 3,148 kilos.—The Pharmaceutical Era.

We Are Creatures of Habit.

There was no rush at the moment and the ticket chopper had time to talk to the man waiting for a friend in a subway station. "Yes, we see lots of queer people here," he said, "and we have nearly the same people every day and at the same hour. I know men who do not vary a minute in a week in their reaching the ticket box. The queerest man we have at this station we call 'the whistler.' Every morning at 7:30 he drops his ticket in the box and he always whistles. That wouldn't be so funny, but for years it has always been the same tune. We all know the tune, but no one knows the song. His ticket goes in the box at the same note every morning, and then he walks to the third post, opens his paper and whistles till the train comes."—New York Tribune.

AMONG THE THEATRES

THE PALACE—CHARLEROI.

For the Fourth of July program the Palace has booked a Great Northern Special Feature Film in three reels, entitled "The Bank Run," which is an absorbing photo drama of the strongest type. It shows how money greed and treachery are run to earth, and is exciting and melodramatic. A strong feature of the fore part of the week was "Revenge," a three reel drama, which is founded on jealousy and a woman's perfidy. The Pathe Weekly is a regular Friday feature, and this is eagerly awaited by the large clientele of Palace patrons. Showing as it does the leading and world wide events and occurrences as they really happen, this is a most interesting feature. The Palace is specially cooled by a series of electric fans, so that the intense heat of the week is never noticed by the patrons. Indeed, many went there evenings to escape the heat. For Saturday Manager R.L. Barnhart has booked a big three reel feature in addition to the regular service. This "Twixt Life and Death," a sensational and thrilling story of love and extraordinary adventure."

THE COYLE—CHARLEROI.

Starting with a big feature in three reels—an Eclaire—"Why?" the Coyle Theatre presented a varied and attractive program for the week. "Why" was a vivid exposition of life at full tide, and attracted much attention. "Dolly and the Burglar," "Self Accused," and the "The World at Large" were some of the leading features of the first of the week's bill. Other noted films were "The Pillar of Peril," "Owana, the Devil Woman," and "The Kidnapped Train." "The Spirit of the Flag" in two reels, was a Bison of extraordinary power, and tells a story of life in the Philippines where the spirit of American citizenship is being instilled into that country by the medium of the American school teacher. Incidentally there was a pretty love story with some thrilling adventures connected. Friday's bill included "On the Brink of the Abyss," a two reel Paris-Eclaire feature, "The Comedian's Mask" in two reels, and "The Ranch Girl and the Sky Pilot." For Saturday is booked "The Grand Old Flag," a two reel Bison, and "The Spring in the Desert."

THE STAR—CHARLEROI

A good hot weather program featured the fore part of the week—"Children of St. Ann" and "The Way of a Mother." The titles of the single films indicate their nature, and they were of a very entertaining character. Among these were "The Road to Ruin," "The Girl Detective's Ruse," and "The Woman Hater's Defeat." A good split comedy film was "Algie on the Force" and "His Ups and Downs." "The Brothers," "Good Within," "Her Sister's Secret" and "Express C. O. D.," were others which attracted unusual attention. On Friday the Fourth is persented "Human Kindness," "Cruel Suspicion," and a split reel embracing "Darktown Belles" and "The Little Hero." The Mutal Weekly of leading world's events is scheduled for Saturday, together with "Past Redemption," in two reels.
